CATH LAB AND ACCESS

The access layer behind every intervention.

Bilingual portfolio brief | Resumen de portafolio bilingue

DOCUMENT CONTROLLED

PORTFOLIO MAP

The access layer behind every intervention.

A practical portfolio for vascular entry, angiographic visualization, backup support and controlled balloon inflation across cath-lab workflows.

01

Coronary and peripheral guides

Guiding catheter concepts reviewed by torque response, kink resistance, backup support and curve portfolio.

02

Angiographic catheters

Diagnostic catheter families mapped by curve, vascular territory, guidewire compatibility and contrast-delivery needs.

03

Introducer sheath systems

Tapered dilators, anti-kink sheaths, hemostasis valves and side-port configurations for controlled access.

04

Balloon inflation devices

Single-use pressure generation and monitoring concepts for angioplasty, deployment and valvuloplasty workflows.

QUALIFICATION LENS

Manufacturer and product qualification - current IFU and technical file - regulatory and country readiness - logistics, training and post-market responsibilities.

MAPA DEL PORTAFOLIO

La capa de acceso detras de cada intervencion.

Un portafolio practico para entrada vascular, visualizacion angiografica, soporte y control de inflado en los flujos del laboratorio de cateterismo.

01

Guias coronarias y perifericas

Conceptos de cateter guia evaluados por respuesta de torque, resistencia al acodamiento, soporte y curvas.

02

Cateteres angiograficos

Familias diagnosticas organizadas por curva, territorio vascular, compatibilidad de guia y administracion de contraste.

03

Sistemas introductores

Dilatadores conicos, vainas antiacodamiento, valvulas hemostaticas y puertos laterales para acceso controlado.

04

Dispositivos de inflado

Conceptos de generacion y monitorizacion de presion de un solo uso para angioplastia, despliegue y valvuloplastia.

CRITERIOS DE CUALIFICACION

Cualificacion de fabricante y producto - IFU y expediente tecnico vigentes - preparacion regulatoria y de pais - logistica, formacion y responsabilidades poscomercializacion.

COMMERCIAL AND CLINICAL BOUNDARY

A portfolio brief, not an IFU.

This Azucena Medical document supports preliminary commercial dialogue. It does not replace the manufacturer's current instructions for use, approved labeling, regulatory status, clinical judgment or country-specific authorization.

Un resumen, no unas instrucciones de uso.

Este documento de Azucena Medical apoya el dialogo comercial preliminar. No sustituye las instrucciones de uso vigentes del fabricante, el etiquetado aprobado, el estado regulatorio, el criterio clinico ni la autorizacion especifica del pais.
